

**Ten Tips for Publishing: During Doctoral Study and Beyond**  
**Marti Rice RN, PhD**  
**Professor, UAB School of Nursing**

1. Make publishing research-related manuscripts one of your goals during doctoral studies (or beyond)
2. Find a mentor, advisor, and experienced author with whom to work.
3. Become familiar with the peer-reviewed journals in your area of specialization and mission, purpose, audience and Author Guidelines for those journals.
4. Decide on order of authorship with mentor, advisor, etc. (need to consider the Uniform Requirements for Manuscripts Submitted to Biomedical Journals: Writing and Editing for Biomedical Publication\*)with mentor or chair of committee
5. Papers are opportunities for publications.
6. Research presentations are first draft of papers.
7. Must make time every week for writing articles/have a writing space
8. Develop outlines and revise as necessary, communicate with Editors
9. Have a writing coach or editor – also writing group
10. Be prepared for multiple drafts – have your manuscript reviewed the more polished your submission, the greater the probability of being accepted
